

Biography

Organized and hard working graduate looking to join the industry as an engineer or intern. Eager to apply and expand upon my acquired skills in mechanical engineering with particular interest in software and mechatronic systems. With a background in competitive sports, discipline and work ethics are second nature.

Work experience

Internship

08/2018 - 08/2019

Design and Manufacturing
Burckhardt Compression (Winterthur)

Applied as an intern during my studies (PiBs) and worked in the design department. During this time I learned to intensively use NX-CAD. I was also involved in various subprojects surrounding auxiliary systems for burckhardts compressor technologies. I learned a lot about work ethics in large corporations and about time/resource management. Of course I also got an insight on several compressor technologies.

Education

Bachelor Degree | BSc in Mechanical Engineering

07/2017 - 07/2021

Department of Engineering
Zürich University of Applied Science (Winterthur)

Studied full time mechanical engineering with a focus on control and automation as well as energy and process engineering.

Cambridge High School | A-Level

06/2013 - 06/2015

Hull's School (Zürich)

Science Path

High School | Grade 10-12

06/2010 - 06/2012

Robina State High School (Brisbane)

Certificate of general education

High School | Grade 4-8

06/2005 - 06/2010

European International School (Manila)

Certificate of general education

Remo Füeg

Mechanical Engineering BSc

- ▶ 08.06.1994 in Zürich
- ▶ swiss
- ▶ unmarried

Skills

Computer Aided Design 2+ yrs.

Python 1+ yrs.

Matlab-Simulink 2+ yrs.

German C2

English C2

Interests

- ▶ Coding
- ▶ DIY
- ▶ Fitness
- ▶ Cooking
- ▶ Travel

Other

Swiss National Golf Team | Mens U25
swissgolf (Zürich)

09/2012 - 09/2014

I used to play for the swiss national golf team for a couple of years, before deciding to follow a path in engineering.
